

# Hamm H7i

## The Hamm H7i Smooth Drum Compactor

The Hamm H7i is a compaction roller with vibratory smooth drum. The H7i has a compact design for optimal all-round visibility and the three-point swivel joint and short wheel base provide excellent driving comfort which is highly advantageous when compacting on confined construction sites.

- Three-point centre pivot assembly
- Short wheel base
- Hydraulic anti-slip control
- Optimum climbing ability and generous angle of slope
- Compact design allowing excellent all-round visibility
- Ergonomic driver platform
- Clear information and operating display

# Hamm H7i

## Specifications

Drum width	1680mm
Width over tyres	1844mm
Total length	4409mm
Total height	2925mm
Operating weight	6540kg
Max. centrifugal force	12742kg
Mass/m without vibration	2369kg/m
Mass/m with vibration (granular)	5763kg/m
Mass/m with vibration (soil)	7584kg/m
Drum diameter	1216mm
Engine manufacturer	Kubota
Fuel tank capacity	123l
